**FOR YOUR  
BIG *Bad* GARDEN**

# SUNTORY *annuals*

Revive your landscape with our collection of big bad annuals. We've selected some of the most unique, tried-and-true, easy-to-grow plants to help you create a gorgeous display wherever you're gardening. Designing a stunning outdoor space can be easy and we're ready to help you along the way by offering suggestions for the perfect garden combo, highlighting a plant's best attributes and if you're still stumped, we'll be your personal garden coach. Let's grow big and bad gardens together!

*Some of the available varieties are:*

# SENETTI® PERICALLIS

The first reblooming pericallis—EVER! And we've got it, growing big and bad in a one gallon container, the best size to plant directly into your container garden, window box, hanging basket or landscape. Its daisy-like blooms flower through summer and then again, after being cut back. Complement Senetti's bold, bright flowers with softer textures, such as Sunbelia™.

## BIG BAD COMBO

Senetti® Lavender pericallis +

# *Tropicals* CAJUN HIBISCUS

For the tropical oasis you've long-been fantasizing about, our Cajun hibiscus are ideal for the fanatics or warm-weathered dreamers. Not only do Cajun hibiscus offer an abundance of larger-than-life blooms, we specialize in rare, big bad varieties, not easily found. New for 2014, our Cajuns are bigger and badder, arriving in a 4 inch container with an average height of 6-8 inches, perfect for planting directly into the landscape or container garden. Hardiness Zones: 9-11.

# Tropicals BOUGAINVILLEA

Bougainvillea have to be one of the biggest and baddest vines around. Their colorful bracts make a statement in the garden, demanding attention as they bloom throughout the season. Give them space in the garden, as they reach heights up to 40 feet, with help from a trellis or arbor. Best part? They'll make for a beautiful, everblooming privacy screen for your backyard oasis. If you're looking for a smaller bougainvillea, our Sunvillea™ are just what you need. They stay compact in the garden, slowly reaching 2-3 feet tall and deliver the same, reliable colors as the standard varieties. Hardiness Zones: 9-11.

*Some of the available varieties are:*

Sunvillea™ Cream

James Walker

Ice® Blueberry

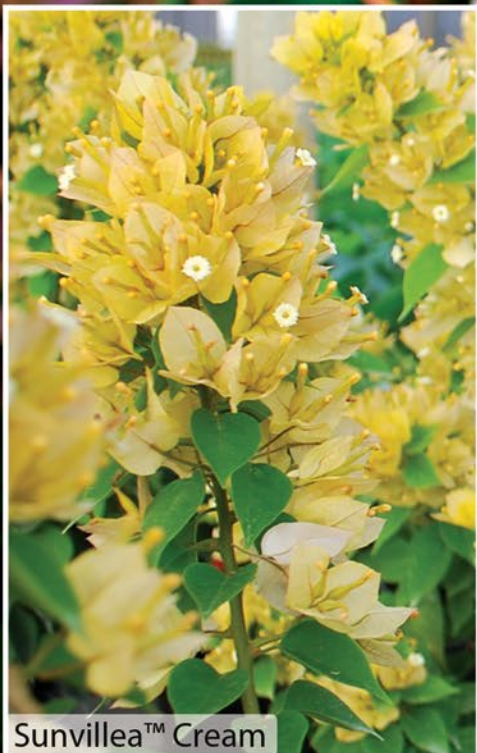

Ice® Orange

Miami Pink

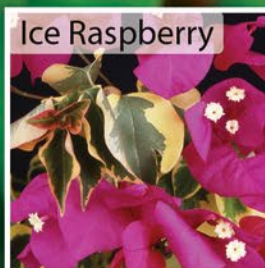

Barbara Karst

Sunvillea™ Pink

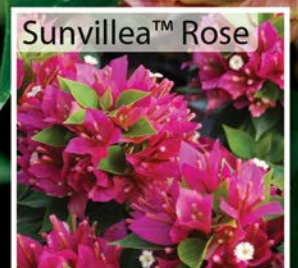

Sunvillea™ Cream

Ice Raspberry

Imperial Thai Delight

Sunvillea™ Rose

SEE MORE AT [BIGBADFLOWER.COM](http://BIGBADFLOWER.COM)

# SUNTORY *roses* SUNROSA™

Our Sunrosa™ roses may look petite, but there's a lot of big bad power packed into their semi-double blooms! They're ideal for a tabletop centerpiece at your next party, the perfect gift to a friend on her birthday, or an easy way to revitalize a window box or container garden. The best part? Our roses are everblooming, low maintenance, disease resistant and Sunrosa™ Yellow offers the sweetest fragrance. Hardiness Zones: 9-11.

## **BIG BAD COMBO**

Sunrosa™ rose of any color +  
complementing color of Sunbelia™ lobelia

*Some of the available varieties are:*

# edibles

For those who prefer gardens to earn their keep, our edibles not only taste good, they look good too. Don't be afraid to mix your design palette—plant blueberries in line with your flowering shrubs; papaya umbrellaing over large-textured perennials; and passionfruit vining up a trellis for a privacy screen. Our edible availability changes frequently based on the season, demand and introduction of new varieties. Please check our website often, or consider becoming a Big Bad Member to know exactly when we have something new to taste-test. Hardiness Zones vary depending on plant.

*Some of the available varieties are:*

Summer Sunset blueberry

Misty blueberry

Emerald blueberry

Mysore raspberry

Sugarloaf pineapple

TR Hovey papaya

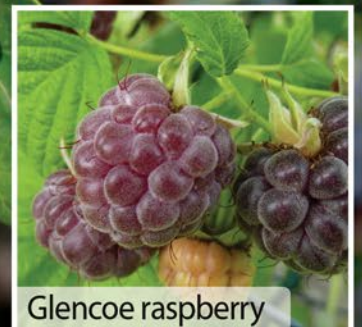

*Emerald blueberry*

TR Hovey papaya

Possum Purple passionfruit

Glencoe raspberry

# succulents

Succulents are everyone's friend, regardless of your gardening capabilities! They grow inside, outside, in containers, in terrariums, almost anywhere and on very little water and maintenance. We swap-out our succulent collection often, not only to put a fresh look on gardening, but to allow for experimenting with new and funky varieties. What you see now, may not always be available. Please check our website often, or consider becoming a Big Bad Member to know exactly when we have a new, big bad plant.

*Some of the available varieties are:*

- Angelina sedum
- Betty cryptanthus
- Black Prince echeveria
- Campfire crassula
- Ghost echeveria
- Mexican Gem
- Pluto Hens and Chicks
- Velvet Leaf kalanchoe

# your big bad garden

## THRILLER, FILLER, SPILLER DESIGN CONCEPT – EXPLAINED!

While many big bad annuals look gorgeous standing alone, when paired with complementary colors and textures in a container garden, you can really wow your guests. Throughout our catalog and website, references are occasionally made to a plant being a great “thriller,” “filler,” and “spiller”. And while my mind immediately goes to a choreographed, Michael Jackson dance-a-thon, that’s not exactly what we mean.

**THE “THRILLER” IS THE MAIN FOCAL POINT**, generally a taller, eye-catching plant placed in the center of a container garden. The “filler,” is the supporting actor, filling the space between the thriller and spiller. And the “spiller” is usually a trailing plant. This concept is an easy way to create a gorgeous container garden, with little design knowledge. If you’d like help pairing the right plants together for a big bad thriller, filler, spiller container garden, please contact us. *We love this stuff!*

# about us

**BIG BAD FLOWER** originally started as a company offering tropical flowering plants such as bougainvillea, hibiscus and mandevilla.

**WE NOW REALIZE YOUR GARDEN COULD BE** so much more big and bad if we delivered, in the same quick, no-hassle fashion, plants for decorating, eating, admiring, and enjoying. We've expanded our plant palette to include unique, must-have annuals, fruits, herbs, succulents, and vegetables, as well as more tropical flowers. But we're not stopping there. Soon, perennials and shrubs will be available, along with hand-selected artisan products, as we work to offer a full line of big bad products.

**WE'RE JUST A BUNCH OF PLANT GEEKS,** like you, passionate about creating big bad gardens everywhere—balcony, backyard, kitchen table, window boxes—everywhere and anywhere! Seriously, even though we're based in Florida, where it's almost always warm and sunny, we ship anywhere within the United States.

## **ORDERING WITH US IS SIMPLE.**

Visit [BigBadFlower.com](http://BigBadFlower.com) to see our full plant collection complete with color options, hardiness zones, special features, and price. From there you can place an order, to be delivered directly to your door, as soon as possible.

# big bad members

## WE'VE GOT A MEMBER PROGRAM THAT TRUMPS ALL OTHERS.

Wait, we know what you're thinking. You already receive umpteen emails a day, half of which you rarely have time to open, let alone read. Why would you submit yourself to yet, another email which may or may not be remotely satisfactory?

**WE GET IT.** We don't want to be another annoyance. So, we're making a promise to you—to only send you big bad emails when we have something absolutely wonderful to share. May it be the hottest new plant to hit our online store. Or, maybe it's news of a gorgeous new planter we're now shipping. We also promise to make the emails short and to the point, so you can get on with the rest of your big bad day. We know you're a rock star. We don't want to slow you down.

**THAT BEING SAID,** being a Big Bad Flower member is so much more than receiving the occasional email blast. So much more. Some perks we can share, some are surprises. We like surprises.

## BY SIGNING UP, YOU WILL GET

- Access to new arrivals 24 hours in advance
- Deals and contest alerts before the word has spread
- Insider tricks and design ideas to growing a big bad garden
- Plus, the secret stuff
